Backsplashes

Price is based on the square footage of the backspash and rounded up to the nearest $5.00 increment.
To calculate pricing utilize the following formula:

$$\left(\frac{\text{Width}\times\text{Height}}{144}\right) \quad \text{x} \quad \text{price per sf} \quad = \quad \text{Cost of Backsplash}$$

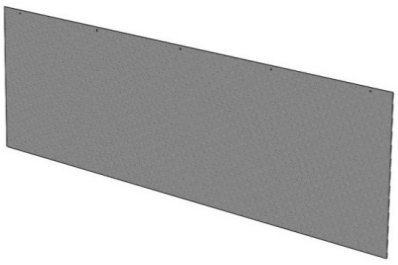

For example, if your backsplash needs to cover an area 23.62" wide by 21.50" high and pricing is $22.00 per square foot, the formula to calculate the c

$$\left(\frac{23.62"\times21.50"}{144"}\right) \quad \text{x} \quad \$22.00 \quad = \quad \$77.59. \text{ Rounded to } \$80.00.$$

$$3.5266' \quad \text{x} \quad \$22.00 \quad = \quad \$77.59. \text{ Rounded to } \$80.00.$$
